PROFESSIONAL SUMMARY

Mr. Gasanov joined BEE Consulting, LLC in July 2016 as the Energy Department Associate. Assisting BEE's growing Energy Department, a central aspect of his position includes designing air barrier diagrams, details and calculations.

With a strong background in architecture, Mr. Gasanov spent many years working in both the public and private sector in his native country of Turkmenistan, located in central Asia. His most recent position included serving as the Department Head Architect for GAP Holdings, a construction company based in Turkmenistan.

From 2001-2005, he served as a Project Manager and Senior Architect for the City of Ashgabat's Planning and Development Department. Mr. Gasanov's duties included developing concepts for design on various projects and implementing techniques for project improvement. Among his notable architectural projects, include several urban developments, government and military projects, and hospitals. In 1986, Mr. Gasanov received the state award for Best Urban Design.
