Machinist

### PROFESSIONAL SUMMARY

Mr. Shafer joined BEE Consulting, LLC in March 2018 and currently serves as one of our Testing Specialists. In his role, Mr. Shafer schedules Air Barrier and Window Testing projects, conducts the testing and then follows through by writing the reports for the clients. Mr. Shafer is well versed in BEE's testing procedures and the hands-on happenings of an on-site field test and is an integral part of BEE's Testing Team.

Prior to Mr. Shafer's employment at BEE, he worked as a Laboratory/Field Technician at National Certified Testing Laboratories, Inc. During his eleven years there, he performed lab analysis of air, water, and structural performance of fenestration products, and field analysis of air and water leakage of installed fenestration products in accordance with the AAMA and the ASTM.

Mr. Shafer is also skilled as a roofer, machinist, and basic carpentry skills that round out his skills and make him a valuable employee to BEE Consulting.
