PROFESSIONAL SUMMARY

Mr. Luxmore joined BEE Consulting, LLC in December 2018 and currently serves as our Fenestration Specialist. In his role, he is responsible for developing and maintaining all procedures involved with NFRC laboratory accreditation including; Training Materials, Quality Control Program, Internal Operations Manual, and Internal Audits.

Prior to Mr. Luxmore's employment at BEE, he worked as an NFRC Certified Simulator at National Certified Testing Laboratories, Inc. During his three years there, he performed a wide variety of product calculations specializing in commercial products where he regularly performed simulations using the Component Modeling Approach. In his time there, Mr. Luxmore's skills were focused on complex product simulation including; sloped glazing, domed skylights, thermochromic dynamic glazing, venetian blinds, and site built fenestration.

Mr. Luxmore is also skilled in computer operations, software support, and customer service making him a valuable asset to the BEE Consulting Team.
