

EKATERINA **B**AUTISTA,
ENERGY CONSULTANT PROJECT MANAGER

EDUCATION M.S., INDUSTRIAL HEAT-POWER ENGINEERING, 2007
 B.S., Industrial Heat-Power Engineering, 2006
 Belarusian National Technical University

EXPERTISE 3D Design
 Simulation Software
 Drawings, Models and Blueprints
 Technical Documentation and Specifications
 Data Acquisition and Analysis
 Auto CAD, Auto CAD Utility Design

PROFESSIONAL SUMMARY

Ms. Bautista joined BEE Consulting, LLC in June of 2018 as an Energy Consulting Associate. In this role, she provided building energy envelope analysis, and compliance of the building energy envelope with the Energy Code. In August of 2020, she was promoted to Energy Consultant Project Manager and added serving as the Project Manager on Energy projects to her list of job duties. She continues to serve a vital role in our Energy Department.

Prior to her time at BEE, Ms. Bautista was an Engineering Assistant with the Gas Design Distribution System Department of Puget Sound Energy. During this time, Ms. Bautista created designs with the smart data AutoCAD Utility Design, analyzed and collected information to verify data used to develop projects, and prepared designs of gas systems to ensure they met applicable codes and standard.

Before working for Puget Sound Energy, Ms. Bautista worked in Belarus for six years as a Design Engineer for NAFTA, and prior that, she spent two years as a Heating Engineer for The Municipal Unitary Manufacturing Facility “Brest Boiler Economy” (an enterprise that provides services for supplying thermal energy for heating, hot water, and technological purposes).
