

Patrick **M**cmahon
SENIOR PROJECT INSPECTOR

EDUCATION

Mechanical Engineering -
Arizona State University, in progress

Cascadia Community College, 2014-2016

Linfield College, 2011

EXPERTISE

Whole Building Air Barrier Testing
Design-Build Project Delivery
Constructability Review
Infrared Thermography Building Assessments

PROFESSIONAL SUMMARY

Mr. McMahon joined BEE Consulting, LLC in May 2015 as a part-time Testing Technician for BEE's Testing Department. Quickly learning the ropes, Mr. McMahon was promoted to Senior Project Inspector in September 2015 and then again in June, 2018 to Project Manager.

As a Project Manager, Mr. McMahon's responsibilities include consulting on multiple projects that include building envelope design for commercial, residential and municipal construction. In this role, Mr. McMahon relies heavily on his field experience and educational background in order to provide an integrated design which can be seamlessly implemented in the field, decreasing construction delays.

Prior to Mr. McMahon's employment at BEE, he worked as an HVAC/R Technician and Fabricator for a local mechanical contractor where he was responsible for completing commercial and residential installation and repair requests. Throughout high school and college career, Mr. McMahon has held various part time and seasonal positions at several local construction companies working on both residential and commercial projects.

Mr. McMahon also has a passion for the outdoors including camping, skiing and fishing.
