

## SUVAD TANJO

PROJECT MANAGER

### EDUCATION

AAAS, Civil Engineering Technology  
Shoreline Community College, 2004

B.A., Civil Engineering  
University of Belgrade, 1985

Bridge Construction & Concrete Composition  
Construction General College, 1981

### EXPERTISE

Static Calculations  
Building Layouts  
Fluency in German, Russian, and Bosnian-Croatian-Serbian

### PROFESSIONAL SUMMARY

Mr. Tanjo joined the team at BEE Consulting, LLC in 2014. As a Project Manager, he adds to his position by having extensive experience in engineering, drafting and building layouts.

Prior to his time at BEE, Mr. Tanjo held several roles including the Investigative Technician & Carpenter-Superintendent Assistant at McBride Construction in Seattle.

While there, he supported integrated investigative construction teams to collaboratively execute statements of work and investigated water intrusions and construction damage. He was also responsible for creating and validating products by utilizing various resources such as equipment, materials and tools.

Before that, Mr. Tanjo worked as a Residential Drafting Designer where he developed blueprints using manual drafting and computer aided design tools including AutoCAD and SolidWorks.

While living in Gorazde he attended the Construction General College where he obtained a major in Bridge Construction & Concrete Composition. He also acquired skills in surveying, plan implementation, mechanical and static theory and engineering mathematics.
